3.4 Work Schedule

describe tentative work schedule

Abstract

type your abstract here

References

1 Introduction

2 Report of Work Done

2.1 Literature Survey Report

2.2 System Study Report

3 Proposed Project

describe your proposed project in detail

3.1 Problem Statement

This should clearly, without any scope for differing interpretations later, state the aim of the project.

3.2 Proposed Solution

This should clearly, without any scope for differing interpretations later, state the methods you are suggesting to achieve the result.

3.3 Hardware & Software Requirements

Specify the requirements. State whether you own them. If it is in the college/institute where exactly. If the required items are not available straightaway, state, how do you propose to make them available. Ensure that all the hardware/software used are legally permitted for the purpose.
